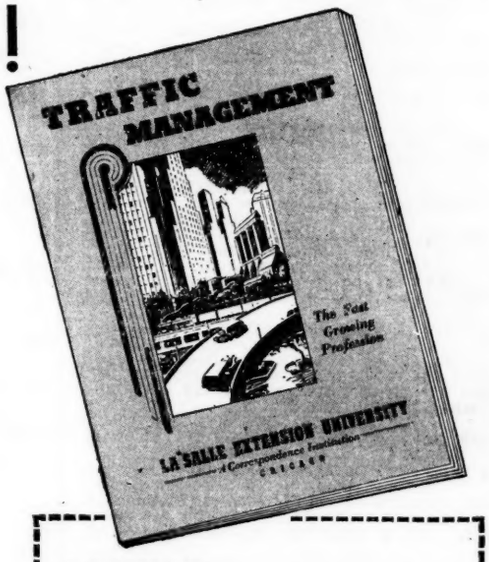
YOU NEED THIS BOOK!



HAVE you often wished you knew the real "low-down"—the authoritative facts—about getting a better job and bigger pay in transportation work?

Then you will welcome our free copy of "Opportunities in Traffic Management" . . . a comprehensive, 48-page, illustrated survey of this vital subject, and of how to win to $3,000—$5,000—$7,500 and even higher-salaried executive jobs by the scientific way of expert, spare-time training. It shows you how to get from where you are to where you want to be—in a field of more and bigger possibilities than ever!

Hit-or-miss learning by slow "experience" while the years fly by, is replaced by specific, step-by-step instruction in every phase of traffic management that in the quickest time qualifies one for bigger-pay work. This is the direct route many have taken from clerkships and commonplace routine to managerships that only ability commands!

Does such a future appeal to you? If so, write today for this booklet. There is no obligation, and you will find it highly interesting.
